CUSTOMER ORDERING PROCEDURE

1. Waukesha genuine parts are available worldwide and must be ordered through your local Waukesha Distributor.

NOTE: Part numbers in this catalog are for reference only and should not be used for ordering parts. Your Waukesha Distributor will refer to your engine specification to make certain you receive the correct parts for your engine.

2. Top level assembly numbers may not all be available as service parts.
3. Always specify to your Waukesha Distributor the engine model designation, specification number, and serial number as found stamped on the engine nameplate (see Figure 1).

4. Always include the part number, when known, along with the description of the part. State the quantity of the part you wish to order. Do not use the word "complete" or designate the quantity by sets.

EXAMPLE: 168660–filter element–(1) Ordered.

NOTE: Quantities listed in this catalog are quantity per engine.

5. If a special part is needed, the engine application should also be stated.
6. Anticipate your parts requirements:
 - Order parts early in the day.
 - Keep a supply of normal maintenance parts in stock.
 - Obtain a parts stocking recommendation from your local Waukesha Distributor.

Part Number And Description

The second column lists the part numbers. The last column lists the description of the part. Parts included in assemblies are preceded by one dot and parts included in subassemblies are preceded by two or three dots.

Engine Model Quantity

The columns headed by engine model numbers list the quantity of the part per engine except when parts are listed more than once in the catalog. The quantity per engine is the total of the quantities listed individually on separate pages.

Extent Of Parts Catalog Coverage

This catalog contains only standard or selected option parts. Variations of these parts as well as other parts are not included. Contact your local Waukesha Distributor for assistance in identifying parts not included in this catalog.
